

Title of article

Names of author(s), with academic degrees

Corresponding author contact details

Original article

I (we) declare that the content of this article is my (our) own original work, and that all or part thereof has not been reproduced from any other publication

Please note that all articles undergo a similarity check by iThenticate®

Exclusive submission

I (we) declare that this article has not been submitted for publication in any other journal, and has not previously been published in any form

Conflict of interest

Declare in full any relevant conflicts of interest and/or affiliation(s)

These include all financial and non-financial interests and relationships, direct employment with a private sector entity (whether full or part-time), and service on private sector and non-profit boards and advisory panels, whether paid or unpaid, grants and research funding (excluding from your own organization), consultancies, speaking fees, writing fees.

Author contribution

if more than one author

I (we) declare that all authors have contributed equally to the writing of this article

Figure reproduction

The figures and tables in this article are all original creations by the author(s)

Yes No

If no, please state which figures have been reproduced or adapted, and from which references

Reference format

The references in this article have been formatted in the AMA style format, conforming with the instructions for authors

Word limits

The word limits defined in the instructions for authors have been respected in this article
